PROFESSIONAL EXPERIENCE

Full Stack Developer (Contract)

Feb 2026 – Present

CholanMortgages | *MajesticEquity*

Toronto, Ontario

- Built a **full-stack** mortgage platform using **Node.js** and **MongoDB**, fully digitizing the 1003 loan intake process.
- Integrated financial REST APIs (**Plaid**, **Persona**, **Stripe**) to accelerate KYC and borrower onboarding.
- Developed a real-time messaging system with **Socket.io** for secure communication under strict **RBAC** compliance.
- Automated document workflows using **AWS S3** and **PDFKit** to generate pre-approval PDFs and LOS exports.

Software Engineer

May 2023 – July 2025

All Bright LTD (Window Cleaning Startup)

Toronto, Ontario

- Architected a **FastAPI** and **React** dispatch platform to digitize operations and eliminate scheduling conflicts.
- Developed **Python** scripts using the **OpenWeather API** to automate job delays from precipitation forecasts.
- Integrated **Google Maps API** with **Nearest Neighbor** heuristics to optimize routing and reduce latency by **18%**.
- Designed a structured **PostgreSQL** database with tagging systems to improve job traceability and system reliability.

PROJECTS

Financial Risk Intelligence Platform | **Production ML Fraud Detection System**

Python, FastAPI, XGBoost, MLflow, PostgreSQL, Docker, React, Prometheus

[Github](#)

- Built fraud detection system using **FastAPI** and **XGBoost** for real-time risk scoring on financial transactions.
- Developed ML pipeline with **scikit-learn** and **MLflow** for training, evaluation, and reproducible model tracking.
- Deployed inference system using **Docker**, **Redis**, and **Celery** for async and batch prediction workflows.
- Implemented CI/CD, structured logging, and **Prometheus** monitoring with **JWT** auth and role-based access control.

OmniDrive — **Unified Cloud Workspace Platform**

React, TypeScript, Tauri, Rust, SQLite, Supabase

[OmniDrive](#)

- Architected a **desktop first** file manager using **React** and **Tauri** to unify multiple **Google Drive** accounts.
- Secured OAuth flows using a **Rust** backend, storing access tokens directly within the native **OS keyring**.
- Implemented a **SQLite** indexing layer for efficient querying across large datasets, reducing search latency by **30%**.
- Integrated **Supabase** to enforce multi-tenant data separation and gate unauthorized desktop commands.

AbWork — **Real-Time Fitness & Health Intelligence System**

React Native, Expo, Firebase, OpenAI, Android Health Connect, Notifee

[AbWork](#)

- Designed offline-first sync model with **Firebase Firestore**, improving data consistency by **25%** across sessions.
- Aggregated wearable data via **Google Health Connect** and **Fitbit** APIs into a unified health dashboard.
- Architected scalable **GenAI workflows** using the **OpenAI API** to serve real-time coaching insights.
- Developed custom drag-and-drop UIs and live workout trackers with native background timers (**Notifee**).

Workflow Automation Engine — **Configurable Backend Automation System**

C, .NET, ASP.NET Core, SQLite, Swagger, Entity Framework, REST APIs, Concurrency

[GitHub](#)

- Engineered a workflow engine using **ASP.NET Core**, **REST APIs**, and **Swagger** for multi-step automation.
- Built a pluggable **handler system** enabling dynamic step execution (validation, transformation, notifications).
- Applied asynchronous processing using **System.Threading.Channels** to manage multi-step workflow execution.
- Designed resilient execution logic with retries, timeouts, and fail-fast handling to identify failures and ensure reliability.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, Java, C#

Frameworks & Backend: FastAPI, React, Node.js, ASP.NET Core, REST APIs

Machine Learning & Data: scikit-learn, XGBoost, MLflow, Feature Engineering, ETL Pipelines

Databases & Infrastructure: PostgreSQL, MongoDB, Redis, Docker, GitHub Actions, Linux

Systems & Tools: Git, Celery, Prometheus, SQLite, Async Processing

EDUCATION

B.Eng. in Computer Engineering

Toronto Metropolitan University

Apr 2025

Toronto, Ontario
